

Vision Airlines Mini Ai Pack for FS 2004

Welcome to my Vision Airlines Mini Ai Package. I just had to do it after my trip to Las Vegas for my daughter's wedding and after taking the flying tour to the Grand Canyon.

I originally thought I was going on the D328 but the 228 was much more fun!!

See the readme text file for package instructions and credits. Here I'm just going to show some of the pictures I took from the Dornier 228-200. This is my first attempt at a realistic repaint. After the trip I just had to do it. I hope you enjoy the pictures in this PDF and the add-on package I have created.

--Doug Roth

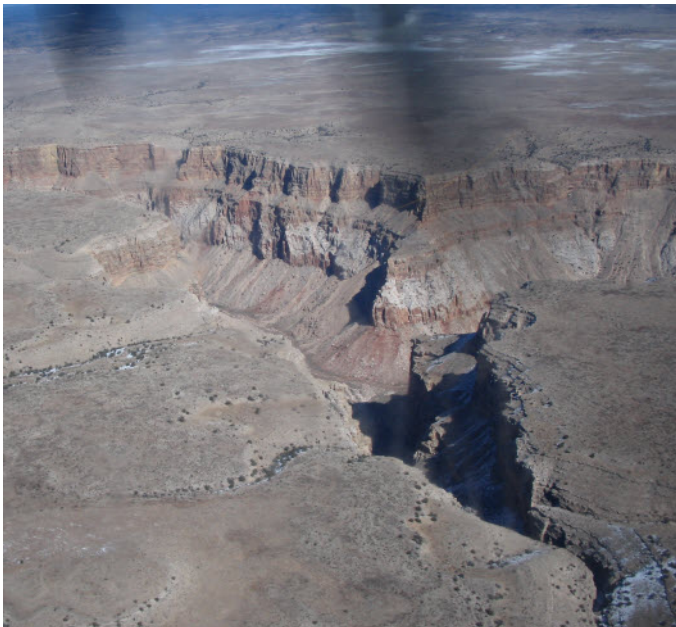

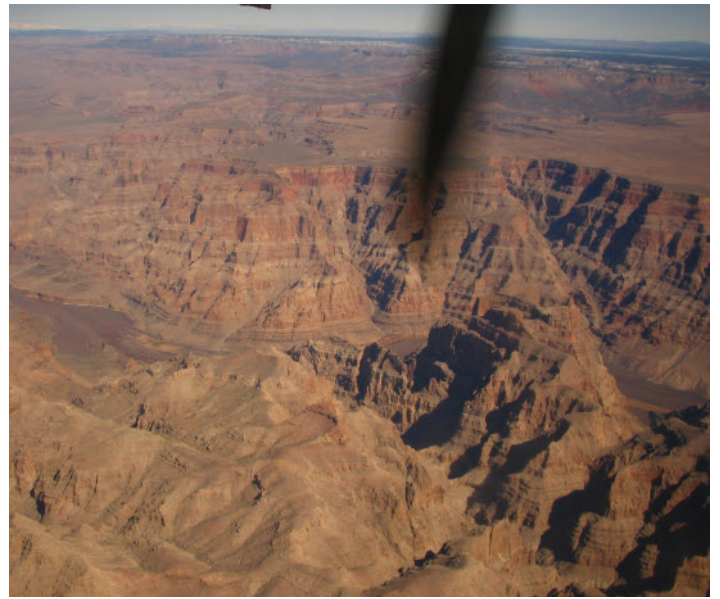

My first view from the terminal.

Cozy cabin. Everyone gets a window!

Hoover Dam

Approach to KGCM
